

# BIO SECURITY BUND

INNOVATIVE MANUFACTURERS OF AWARD
WINNING FASTANKS, PORTABLE CONTAINMENT
TRUSTED WORLDWIDE

A Disinfection System for Vehicles & Equipment during Animal & Plant Disease Outbreaks

**Applications** 

- Agriculture Infection Control
- Vehicle disinfection
  - Disinfection Bath
  - Spray Bay
- Vehicle wash down
- Suitable for HGV's and tractors

Benefits

- Versatile and reusable
- Robust and durable
- Low life time cost
- Compact storage
- Corrosion resistant easy to clean
- Assembly and repackaging in less than 4 minutes
- Manufactured to the highest quality
- Easy and convenient to transport and store
- Containment of disinfectant
- No training required
- Innovative design

Supplied in an EzeeBOX™

Specifications

Size	• 6.5 x 4.0m
	Bespoke sizes can be manufactured
Colour	Black with orange pockets & Grey tram lines
Volume	Up to 75mm depth of disinfectant
Chemical	Suitable for use with most chemicals.
Resistance	Chemical resistance chart available on request.
Weight	Bund = 37kg - Handles Provided
	Speed Ramps = 12.5kg each

Manufactured to ISO 9001 2015 Quality standard from a composite of (900gsm) rip stop acrylic and vinyl coated polyester fabric and heavy duty mesh. Aluminium wall supports.

Suitable for <u>DEFRA</u> Approved Disinfectants.

Registered Design No: 6008776

## **BIO SECURITY BUND COMPONENTS**

INNOVATIVE MANUFACTURERS OF AWARD WINNING FASTANKS, PORTABLE CONTAINMENT TRUSTED WORLDWIDE

#### **Composite Enclosure**

- The Bund enclosure is an impermeable composite design using rip stop 900gsm coated fabric and a protective reinforcement layer.
- This is more beneficial than absorbent matts as disinfectant is contained and 100% coverage is achieved.

- The ramps are installed on a level surface and the bund is laid out on top and secured.
- Fluid retention at ends.
- Speed reduction for effective disinfection.

- Reinforcement layer provides protection to the fabric and grip for vehicle wheels.
- High frequency welded in place.

#### **Tram lines**

Grey tram lines provide guidance for drivers

#### EzeeBOX

- For storage of enclosure and accessories while not in use.
- Packaged Weight = 56kg
- A water proof robust box
- Convenient handling, transport & storage.

#### **Overflow Kit (Optional)**

- Offers controlled overflow & emptying of bund.
- Valve outlet for flow regulation.
- Corrosion resistant.

### **Aluminium Alignment** Frame (Optional)

- Designed to align the ramp pieces for temporary installation or on open surface roads or tracks.
- Holding down bolts are supplied as standard for permanent installation on asphalt or concrete.

**FASTANK** will manufacture Bund sizes to meet customer requirements.
